

VIDEAIM IP PRIVATE LIMITED

We provide services to protect intellectual property (IP) rights, to create a business out of the protected IP rights and to enforce these rights. Our expertise is in planning the road map of a technology by assessing the potential and limitations of the technology and securing legal rights for these technologies, making them safe investments that fosters a successful business.

We understand creating a business from a technology is challenging; therefore, strategizing investments for parallel development of both business and technology is paramount.

Our unique selling point is our qualified panel and personnel, transparency, quality work, passion for our work and providing a one stop shop from idea to business.

We help our clients succeed and realize their goals through a wide range of sectors and areas of technology including:

- Chemistry
- Life & Sciences
- Pharmacology
- Bio-technology
- Nano-technology
- Engineering
- Mechanics
- Electronics
- Software

"We are working hard to provide the highest possible standard of services, always delivering reliable advice and empowering our clients to make the right decisions."
